About us...

With CraneBank you're never alone

Transporting crawler, mobile and tower cranes presents major logistical challenges. Crane measurements and weight are major factors, coupled with local road regulations and site locations that are often remote and inaccessible.

Shipping your cranes isn't as simple as mailing an overnight package. As cranes increase in size and weight you will be well aware to organize your shipment through a company you know and you can trust. Together with our logistics partners, CraneBank Logistics Services transports all kinds of cranes around the world on road, rails and sea.

As a solution provider for crane transport we know the right schedule for your cargo, arrange the packing of the goods, do lots of paperwork, ask for the insurance cover and move the equipment to the destination port.

Offering financial services helps you in today's economy to purchase a crane now and pay later. Besides the logistics services we're offering a forfeiting credit in cooperation with our home bankers as well. For cranes purchased at CraneBank Project Management GmbH we are able to give you credit line for 180 to 360 days.

Additional major repair services and operator trainings are offered to our valued customers as well. The company was founded in 2005 by Dr. Günter G. Soost as a subsidiary of CraneBank Project Management GmbH. The company is located nearby the city of Cologne in the west of Germany and another branch is close to the city of Kassel.

You can rely on your cargo being shipped carefully and on time.

Shipping cranes takes more than just ocean vessels!

Logistics Services

Financial Support

Insurance Cover

Special projects demand a special crane - a CraneBank first class crane. Whether you want a self erecting tower, a compact city, an 8 x 8 x 8 All-Terrain crane or a fully equipped crawler, our experts will help you find the crane that suits your needs. CraneBank offers such a tremendous selection of cranes. Choose from a wide range of mobile, crawler and tower cranes at cranebank.com.

Customers and potential buyers benefit in major ways from their relationship with CraneBank:

- Crane sales
- Credit line
- Shipment
- Spare parts
- Services

Crane sales: As a crane expert you will be well aware of the need to get a good value used crane from a company you know and you can trust. You are invited to the most comprehensive relationship for all segments in the field of crane business - sales, logistics, financing, spare parts and after sales services.

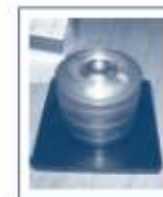

Credit line: Another major reason is our financial support. For cranes purchased at CraneBank Project Management GmbH we are able to provide you with a credit for six to twelve months. You will buy pre-owned and run a first class crane immediately.

Shipment: We transport all kinds of cranes around the world on own wheels, on the road, on rails and on cargo vessel. You can count on a full yard to yard service including legal documents and certificate of marine insurance. By today CraneBank has shipped cranes in 49 countries.

Spare parts: The scope of our trade includes the supply of original components and crane parts from the leading German manufactures LIEBHERR, TEREX-DEMAG, GROVE-KRUPP and TADANO-FAUN. In addition we have hook blocks as well as truck and engine parts from MERCEDES and MAN.

Services: Major repair services for cranes and components are offered to our valued customers. Safety is a fundamental part of the lifting business. CraneBank arranges operator trainings, manuals and up-to-date information on regulations and standards.

We stand behind our services and know you will love it!
