CraneBank[®]
The Original Crane Parts Supplier

About us...

Delivering to every angle

The world is a big market place but thanks to your relationship with CraneBank it is going to start feeling a lot smaller. This is because you will save time and money if you deal cranes with us!

But today, you need more than great machines. That's why we're offering financial services, logistics and components. As a result, customers get the specific business solutions they need. For supply of crane components and parts it's called CraneBank Material Handling. Why? Because we deliver to any angle of the world guaranteed from Germany.

To ensure the best service for our international customers, we founded CraneBank Material Handling in 2006 as a subsidiary of CraneBank Project Management GmbH. The company is located nearby the city of Cologne in Germany.

The scope of our trade includes the supply of original components and crane parts from the leading German manufacturers Liebherr, Terax-Demag, and Tadano-Faun. In addition we have hook blocks as well as truck and engine parts from Mercedes Benz and MAN. Our aim is to provide you with original parts only, valuable priced and delivered on time.

Your request should include:

- » Type of crane or engine
- » Model / year
- » Serial number
- » Part number

That helps us to quote immediately.
